RozBazaar

rozbazaar.shop

Your village vendor. In your time slot.

आपका गाँव का सब्ज़ीवाला — आपके टाइम पर

Slot-based doorstep delivery of fresh vegetables, fruit and onion-potato by trusted local vendors — built for India's villages.

Pitch Deck · Eureka! Junior 2026

Team ID **EJ26T161683**

Founder · Vedanshu Rathi

THE PROBLEM

In our villages, fresh sabzi still runs on luck.

100%

say quick-commerce apps **don't deliver** to their village

70%

say the thela-wala comes at **random times** — or not at all

1.4/5

satisfaction with today's options — and still **2–3 mandi trips** a week

90%

name **no / unreliable delivery** as their biggest pain

Vendors lose too. Carts full of stock walk empty lanes — no idea who wants what, or when. No digital way to reach customers.

Source: RozBazaar primary survey, residents of the Pataudi–Haileymandi belt, Haryana (n = 10), Sept 2026.

WHY TODAY'S OPTIONS FAIL

Every option solves half the problem.

Mandi trip

A 2–3× weekly trip that costs time, fuel and a working day.

70% buy here

Random thela-wala

Fresh and trusted — but you never know when he comes.

70% say random

Phone / WhatsApp

Works for one seller; no slots, no bill, no record.

Does not scale

Quick-commerce apps

Built for metro dark stores — they don't reach villages.

100% not served

THE GAP Trusted **local vendors** + the **convenience** of a booking app. Nobody offers both.

THE SOLUTION

Book the slot. The vendor comes. Weigh, pay, done.

1 **Book a slot**
Pick items + Morning 7–11, Afternoon 12–4 or Evening 5–8. Hindi or English.

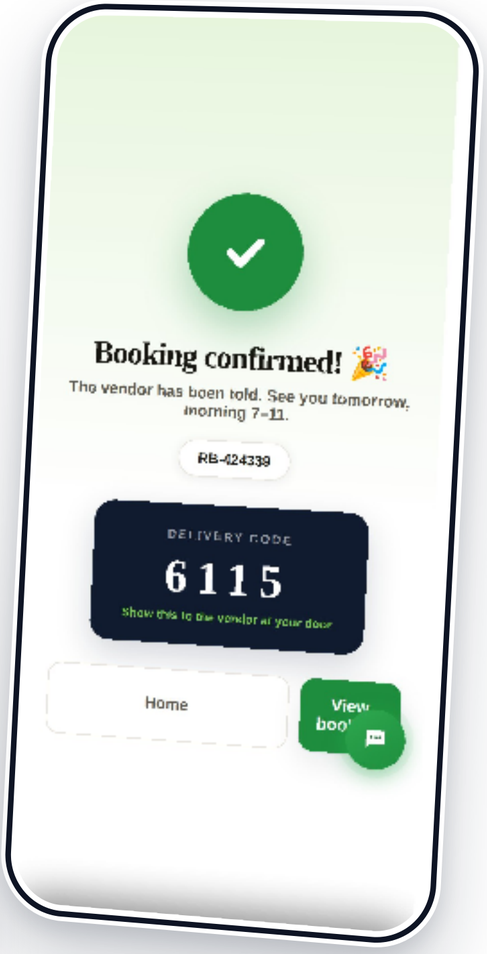

2 **Vendor comes**
A verified local vendor, auto-matched by village, load and rating — live on the map.

3 **Weigh · pay · confirm**
Weighed at your door, live bill, pay cash or UPI directly. 4-digit code confirms.

₹0 delivery fee for customers | Hindi-first | Order by voice

Push alerts
Hindi & English

SHIPPED IN OCTOBER 2026

Built for how villages really shop.

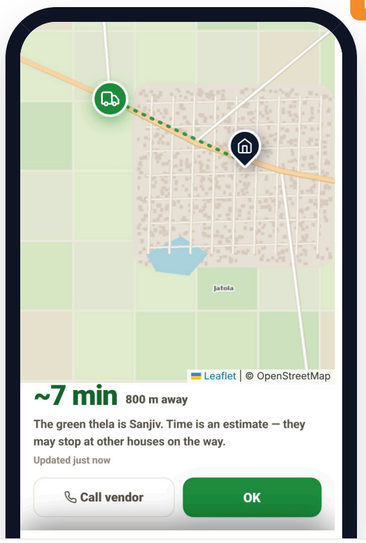

NEW

Order by voice

Say **"दो किलो आलू, एक किलो टमाटर"** — the app writes the list with prices. Hindi or English, no typing needed.

NEW

Track the thela live

See the vendor coming on the map with minutes to arrive. An "almost there" alert comes at 700 m.

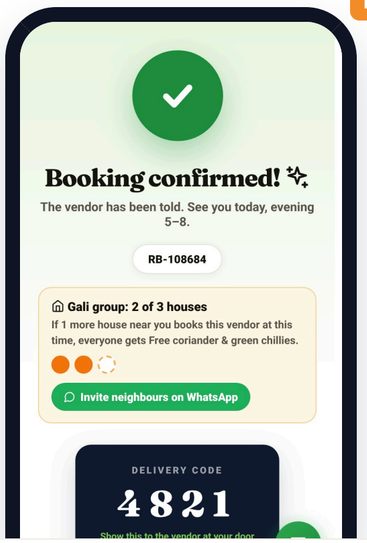

NEW

WhatsApp rates card

One tap makes today's rates picture with a QR code. Vendors and customers post it in village groups.

NEW

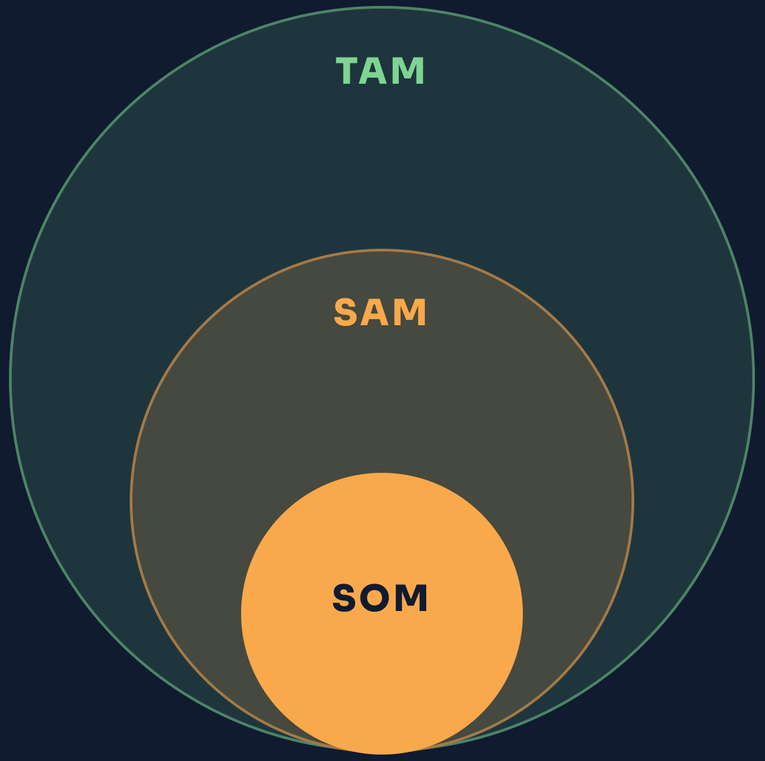

Gali group order

3 neighbours book the same vendor and slot → every house gets free dhaniya-mirch. Neighbours bring neighbours.

MARKET OPPORTUNITY

A huge market that the big apps skip.

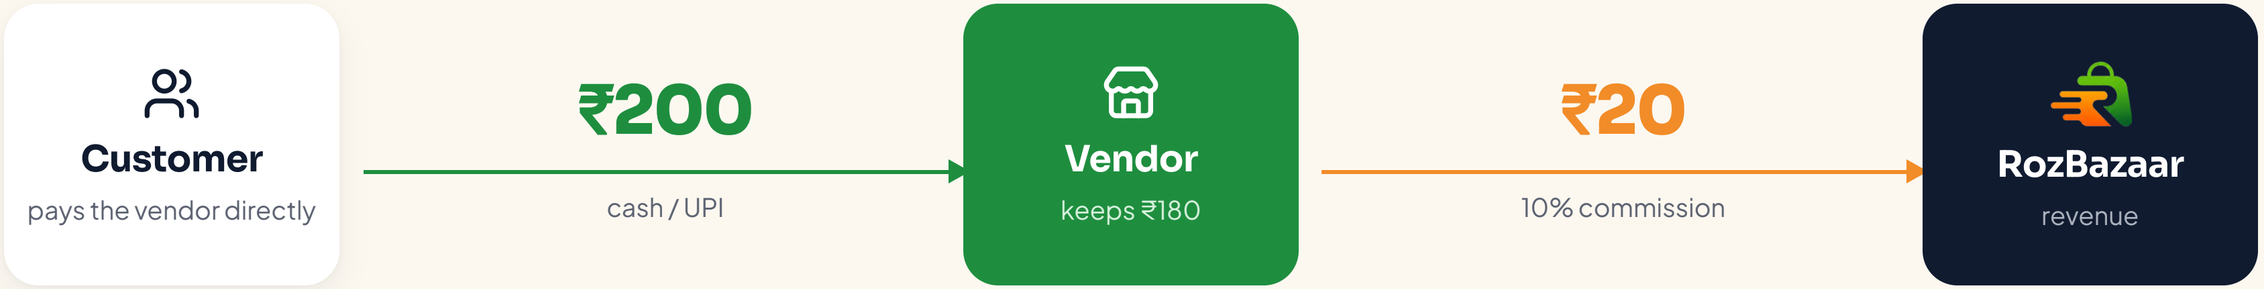

- **₹3.3 lakh cr / year**
  Rural India — fresh vegetable & fruit spend of ~17.9 crore rural households
- **₹5,600 cr / year**
  Rural Haryana — 30.4 lakh households in 6,841 villages
- **₹7.8 cr GMV → ₹78 L revenue**
  Our 3-year target — 5,000 homes in the Pataudi–Haileymandi belt, 2 orders a week of ₹150

Basis: HCES 2023–24 (MoSPI) — rural MPCE ₹4,122, of which vegetables 6.03% + fresh fruit 2.54% ≈ ₹18,600 per household per year (household of 4.4). Households: Jal Jeevan Mission (2019), Census 2011. Estimates, rounded.

BUSINESS MODEL

Customers pay ₹0 extra. Vendors share 10% of new sales.

0%

for the first 30 days — easy onboarding for vendors

10%

only on **completed** sales — rate adjustable from admin

0

warehouses, riders or inventory — asset-light by design

NEXT REVENUE STREAMS Featured vendor listing · Premium vendor plan · Bulk & event orders (weddings, functions) · Local brand promotions

COMPETITION

The only option that ticks every box.

	Choose your time slot	Inspect & weigh at door	Comes to your home	Digital bill & record	Works in villages	Track the vendor live NEW
Mandi / kirana	✗	✓	✗	✗	✓	✗

RozBazaar	✓	✓	✓	✓	✓	✓

~ = partly. Quick-commerce apps are great in metros; they run on central dark stores, which is why villages are left out.

Concept · branded RozBazaar vendor tempo

WHY WE STAND OUT

Blinkit for villages — powered by the thela-wala.

Local trust

A local founder who knows the vendors and families face to face.

Asset-light

Vendors already own carts and stock — no warehouse, no riders, no inventory risk.

Product already built

Four live apps, 290+ backend functions, Android app, voice ordering and live tracking.

Village-level data

GPS village boundaries, an 8 km service area and slot-wise vendor coverage — a growing moat.

> **We don't replace the thela-wala. We make him bookable.**

GO-TO-MARKET

Village by village, vendor by vendor.

Vendors as the channel
Each thela-wala invites his regular customers at the door

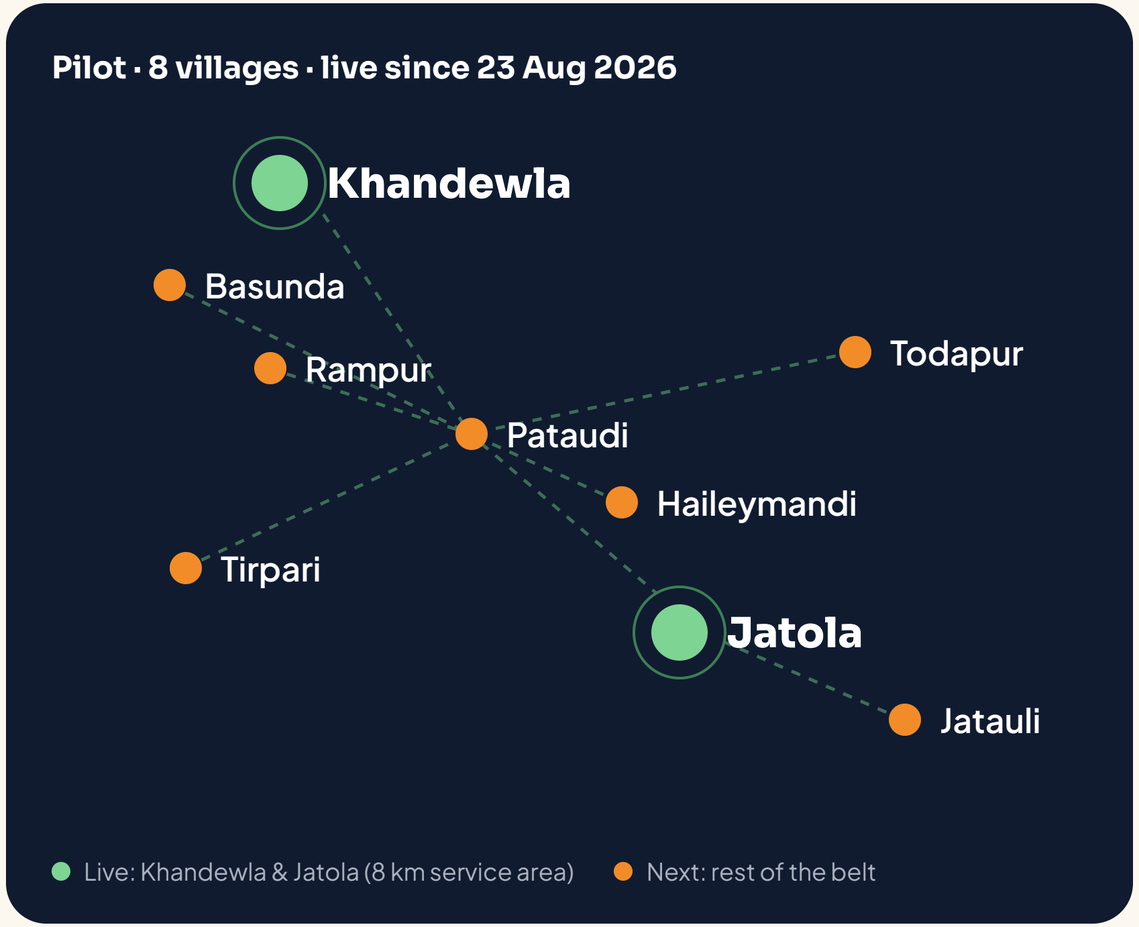

QR on carts & pamphlets
Scan → app, right where people already buy

Daily rates card on WhatsApp NEW
Rates picture + QR, posted in village groups every morning

Gali groups NEW
3 houses in a lane, same slot → a free bonus for each

Panchayat demo days
Sarpanch-backed launch in each village

Push reminders
Night-before & 30-min slot alerts drive repeat orders

VALIDATION & PILOT

Villagers said yes. Now we prove it.

20% maybe · **0% no**

PILOT TARGETS

10
active vendors

200
registered customers

100–150
bookings

95%
vendors still active

Then: validate 10% commission from month 2 · measure repeat rate & on-time-in-slot %

ALREADY DONE

- Customer survey — problem validated
- Live since 23 Aug in Khandewla & Jatola
- 4 apps live + Android app
- Real orders weighed, billed & paid at the door
- Voice ordering, live tracking, WhatsApp rates card
- Pvt Ltd name approved · registration in process

ROADMAP · 7-YEAR VISION

From two villages to every small-town home in India.

2026

Pilot

Live in Khandewla & Jatola → 8 villages of the Pataudi–Haileymandi belt

2027

The whole belt

Every village of the belt · commission live · apply for Startup Haryana seed grant

2028

Gurugram rural

Villages of Gurugram, Rewari & Jhajjar districts

2029–30

All Haryana

Tier-3 towns and their villages across the state

2031–33

Tier-2 & 3 India

Every tier-2 and tier-3 city in India — and the villages around them

> **“Fresh vegetables from the local vendor, in a time slot — for every home.”**

TEAM

Small team. Big build.

VR

Vedanshu Rathi

Founder · 15 years old

- Designed and built all four RozBazaar apps and the backend
- Ran the customer survey in the Pataudi–Haileymandi belt
- Previous venture: **Kishan Suraksha AI**
- Local founder — face to face with vendors and families
